

BATHMASTERS[®]

Full Service Bathroom Renovation

All Under One Roof

Crafting Excellence

We are a family-owned and run full-service bathroom renovation company, not a franchise. As a fully certified and licensed building, plumbing and electrical contracting company, we could do anything but we don't. We've chosen to focus on full bathroom renovations for residential customers. It's our specialty and we do it better than anyone else.

Our full-service approach tackles everything from initial consultation through completion. We handle any needed permits, guide you through the design phase, provide access to exceptional product options and perform expert installation and finish work.

Your full-service sales associate will act as your single point of contact from the initial phone consultation, continuing through with in-home measurements, design, contract prep and revisions, and finally product selections done in our exclusive showroom. Every step is done by appointment so you are guaranteed the uninterrupted one-on-one service our customers have grown to love. Your project supervisor takes over at this point and oversees and guides the entire remodeling process so that you have nothing to worry about.

After fifteen years in business and thousands of successful bathroom renovations, you can be confident that our expertise will result in you getting the bathroom of your dreams.

Our Installation Team

Every business tries to recruit the best talent possible and BathMasters is no exception, going to great lengths to recruit the most qualified candidates to join our winning team.

Because BathMasters is a family company, we do our best to treat our hard working staff like family, too. That includes providing steady work, top pay and exceptional benefits including health insurance, paid holidays, vacations and even retirement plans. While we know it's just the right thing to do, we also believe that our investment in our team is beneficial to

our business because it's providing an enhanced, exemplary service experience to you and every one of our customers.

Applicants are thoroughly tested in our very own testing and training facility in Clearwater for accuracy, quality and speed. Our multi-step hiring process ensures that only friendly, professional team-players—approximately the top ten percent—are hired to become members of the BathMasters team.

Service Area

Please note that despite the fact that we are licensed to service the entire state of Florida, we have chosen to limit our service area to Pinellas County, South Tampa and the NorthWest portion of Hillsborough County west of I275. We have found success in focusing our efforts upon a relatively small geographical zone, as this not only maximizes our efficiency but increases our ability to closely supervise each and every project we take on.

Products and Partnerships

BathMasters is partners with Kohler, whose name is synonymous with quality and style in plumbing fixtures. Kohler has been innovating and improving plumbing since 1883 and there is no other company we'd rather work with. Our partnership allows us access to everything Kohler sells and, more importantly, an understanding and solid knowledge base for their products. Kohler also provides us additional design tools and support staff exclusive for their remodeling partners.

Another outstanding company BathMasters works with is Schluter Systems, which has revolutionized tile prep and waterproofing systems. We use Schluter waterproofing membranes in every one of our tile projects, guaranteeing that your new space will be protected from water damage throughout its life.

By partnering with several of the top US made cabinet manufacturers, we can create virtually any cabinet configuration with any door style, stain or paint color. Our

cabinet lines offer the factory-built, high-quality features you would expect such as slow-close doors and drawers and full extension undermount hardware along with dovetailed, all-wood drawer construction.

As granite and quartz fabricators, we have partnered with one of the largest importers of granite slabs in the country allowing you access to thousands of granite slabs. In addition, we offer dozens of designer quartz slabs. Many customers choose to select their countertop material from our remnant racks. Our racks feature remnants of all sizes, in showroom lighting, allowing real-time instant coordination of your tile, plumbing and cabinet samples directly next to the actual slab material to be fabricated. Talk about a homeowner's dream, everything all under one roof.

BathMasters also fully handles all custom shower doors and custom mirrors in-house. We have you covered from A–Z on your new bathroom remodel.

Using reputable materials is the first step towards your peace of mind. The second is to stand behind every piece of your new bathroom. In addition to the substantial warranties provided by material manufacturers—including some lifetime product warranties—BathMasters is proud to cover everything we do with a comprehensive three-year warranty on our projects, both products and labor.

TILED FLOORS THAT DON'T CRACK? YUP, WE HAVE THAT COVERED. MOLD-RESISTANT SHOWERS? WE HAVE THAT COVERED, TOO. WE USE HIGH QUALITY RELIABLE MATERIALS FROM KOHLER® AND ACRYLIC SURROUNDS FROM BCI ACRYLIC. BATHMASTERS IS ALSO AN AUTHORIZED DEALER FOR SCHLUTER® WATERPROOF PRODUCTS AND USE ALL OF THEIR WATERPROOF MEMBRANES.

Distinction on Display

Everyone is welcome to check out the BathMasters showroom, get ideas and learn more about the company. However, showroom design and product selection appointments are reserved exclusively for those choosing BathMasters as their full-service remodeling contractor.

The showroom has been designed and built to allow you the time, space and personal attention necessary to create the perfect new space for your home.

With dozens of design displays, our showroom includes everything you need to design your ideal bathroom, from tile to made-to-order custom cabinetry, from

countertops to fixtures. We designed our showroom with you in mind, to enable you to see and touch different options, so that you know what you're getting, and that it is exactly what you want.

Think of our showroom as your one-stop shop. In fact, it is like visiting several different companies in one. We have tile, cabinets, granite and glass because we create the custom glass enclosures you desire and fabricate the granite and quartz tops of your choosing.

The BathMasters showroom has everything you need, all under one roof.

While we are obviously a business focused on bathroom renovations, many of our customers request that we remodel their kitchen concurrently with their bathroom. And more still call us up after we finish their bathroom and request we return to remodel their kitchens. In these scenarios, we will expand our services to include kitchen remodeling. And, with hundreds of kitchen remodels under our belts and all the product lines you would expect from any kitchen remodeling company, we can easily handle your kitchen project too—but remember—kitchen remodels are only available to our bathroom remodeling customers.

Commonly Asked Questions

I HAVE ALREADY PURCHASED MY PRODUCTS OR INTEND TO PURCHASE THEM ELSEWHERE, CAN I HIRE BATHMASTERS TO BE MY CONTRACTOR?

BathMasters has found the greatest success by providing one hundred percent of the services needed to successfully renovate residential bathrooms. This includes working through the design and product selection phase directly with homeowners, handling all ordering, receiving, pre-inspections and delivery service via our own fleet of trucks. One big advantage of our full-service model is that it ensures accountability on every level of your renovation. However, in order to provide that superior service, we work solely as full-service providers and are unable to work with homeowners who have already purchased, or plan to purchase, their products elsewhere.

I HAVE A CONTRACTOR ALREADY, CAN I PURCHASE PRODUCTS FROM BATHMASTERS?

Unfortunately, BathMasters is not designed, and does not operate, as a retail showroom. Our showroom is probably better defined as an exclusive design center for our remodeling customers.

DO YOU OFFER TUB TO SHOWER CONVERSION OR WALK-IN TUBS?

We offer both tub to shower conversions and walk-in tub options, securing all necessary permits and utilizing the highest quality products. We also offer curbless showers, showers with no threshold, for wheelchair access. Essentially, we offer any kind of shower you desire, whether acrylic, solid-surface or fully tiled.

ARE THERE ANY BATHROOM RENOVATION SERVICES YOU DO NOT OFFER?

We do not replace vanities alone or perform tile repairs. Similarly, we limit our granite or glass fabrication services to our full-service remodeling customers. And, while you'll receive an entirely new room, by remodeling your bathroom with BathMasters, we specialize in interior renovation work and do not provide building services for new additions.

Customer Testimonials

I was extremely impressed by BathMasters' professional crew. Each day they entered my home they arrived with a positive attitude and worked diligently through the day. At the end of the day they cleaned up the area leaving it as pristine as possible. I had two bathrooms remodeled and both are a showcase to behold. All materials were top quality. I have referred this company to all my friends and would use them again in the future. Outstanding job! The words "Thank You" just don't say enough.

— Jason W.

BathMasters did an excellent first class job in doing our tub to shower remodeling. Starting with the salesman and including all of the workers. Every one of the workers were well qualified in their specialty and they were very friendly and helpful. Before the work began they covered everything and when the job was complete they left the job site—very clean. I would highly recommend them for all bathroom upgrades.

— Marcus S.

Had a tub to shower conversion. Could not have been more pleased with communication, workmanship, reliability of the staff. Even the inspectors were pleased! Thank you so very much!

— Kathleen D.

Entire experience with BathMasters was excellent, from very attentive sales person to incredible installers. Work was beautifully done. We could not be more pleased.

— Karen T.

Superior workmanship, timely completion, and excellent value are a few ways I would characterize the bathroom remodeling project done at my home by BathMasters. I should also add friendly and accommodating customer service from start to finish. The project involved complete gutting of the bathroom and reconstruction of walls, installation of new bathroom fixtures, lighting, and new tile on walls and floor, all purchased through BathMasters with their help. I will choose BathMasters for my next project, and I recommend the company without question.

— Wayne U.

Workers were very professional. They went above and beyond to make sure everything was perfect and I was happy. I would definitely recommend them. I plan on using them again for my second bathroom.

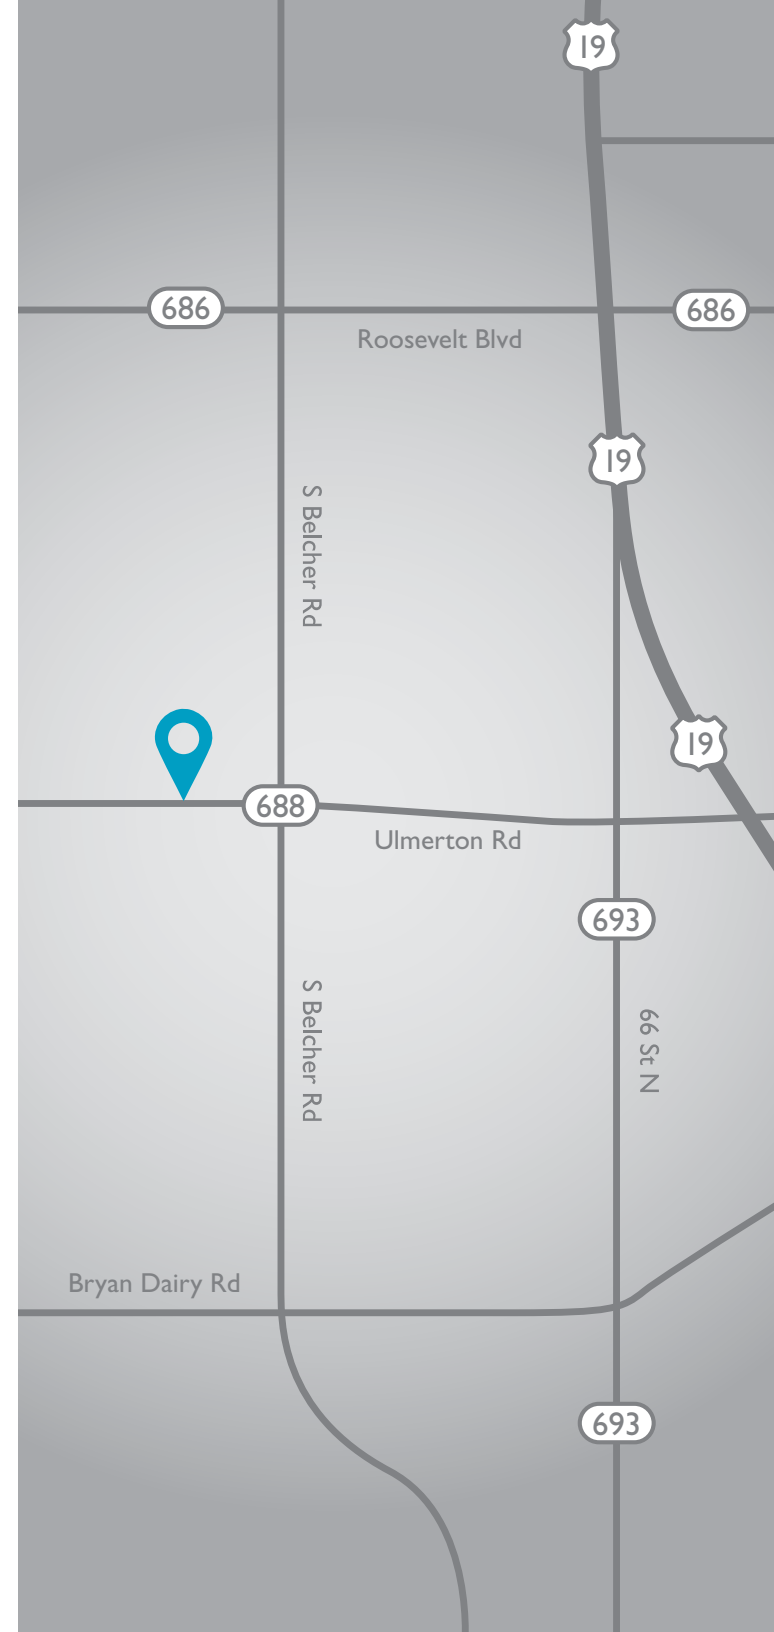

— Cynthia D.
